

## CARE & MAINTENANCE

Poly Furniture is made from High Density Polyethylene (HDPE), a recycled plastic that will never need to be painted or stained.

It will not rot or splinter, and it contains an added UV protective agent to resist fading. Poly furniture is not affected by most corrosive substances, and will not promote bacterial growth.

To maintain the beauty of your furniture, clean it regularly with soap and water. Use only nonabrasive soaps. Do not place flower pots or any items on furniture that will leave stains. Do not place hot items directly onto furniture to avoid melting. All hardware is stainless steel and virtually maintenance-free under normal conditions. However, in coastal areas, hardware will need regular rinsing with fresh water to eliminate rusting.

If you properly care for your fine piece of poly furniture, you will be able to relax in it for many years!
